# City of Falfurrias L.E.D. Lighting Project

Presented By: John Phillips, President - Enviro-Lite Solutions, LLC  
Jaime A Rodriguez, Vice President – Enviro-Lite Solutions,  
LLC

# City of Falfurrias

## A City of Vision

## Project Details

1. Energy Savings – Up to 70% over current lighting energy consumption
2. Annual savings to city \$41,288.23
3. Reduced maintenance – LED lights last 50 times longer than incandescent and up to 5 times longer than fluorescent = lower replacement costs and man hours changing lights and ballast.
4. Reduce health hazards for staff and visitors – Reduce eye strain and eye stress caused by fluorescent light flickering – improved light increases attention span and improves behavior. (clinically proven)
5. Reduce Carbon Footprint – GO Green!
6. No bio hazardous materials – environmentally friendly lighting!
7. **Improved lighting which has improved security and safety for staff and citizens at night.**
8. **Many compliments on improved lighting from residents!**
